

## Pulsar 380 Supplementary Instructions

When reading your model instruction manual please note the following points.

### **Assembling The Flybar**

Your Pulsar 380 is supplied with the Flybar part assembled, gently insert it into the outer drive shaft above the top rotor blade.

### **Using Your FMS Software**

It is advised that the frequency crystal is removed from the transmitter before operating your FMS software.

Please use the following settings when setting up your FMS software.
